Objective:

Aspiring Java Developer with a strong foundation in Java programming, Object-Oriented Programming, JDBC, MVC architecture, SQL, and basic web technologies including HTML, CSS, and JavaScript. Hands-on experience developing academic projects using Eclipse IDE and IntelliJ IDEA, and Maven. Passionate about building reliable software solutions, solving technical problems, and continuously learning modern Java technologies.

Education:

Qualification	Institution	Year	Percentage / CGPA
10 th	Little Angels of Matriculation and Higher Secondary School, Namakkal.	2020	81.8%
12 th	Little Angels of Matriculation and Higher Secondary School, Namakkal.	2022	73.8%
B. Tech - Information Technology	Dhanalakshmi Srinivasan Engineering College(A), Perambalur.	2023 - 2027	8.54 CGPA (upto 5 th semester)

Technical Skills:

- Programming Languages: Java, Python, HTML, CSS, JavaScript (Basics), Maven.
- Core Concepts: Object-Oriented Programming (OOP), Collections (Basic), Exception Handling, JDBC, MVC Architecture, Data Structures (Basics), Problem Solving
- Database & Tools: SQL (Basic), GitHub, Eclipse, IntelliJ IDEA, Dev-C++, Spyder, Jupyter Notebook.
- AI & NLP: Natural Language Processing (Basic Understanding), OpenCV, MediaPipe.

Projects:

Java Console Applications

- Developed multiple console-based Java applications to strengthen programming fundamentals

- Applied Object-Oriented Programming concepts including classes, objects, inheritance, and exception handling.
- Improved debugging, logical thinking, and problem-solving skills.

Emotion Adaptive Online Learning Platform

- Developed a real-time student focus detection system using Java and OpenCV that analyzes facial and eye movements through webcam input to determine student attention during online learning sessions.

Sign Language to Speech Converter

- Built an AI-based system using Python, OpenCV, and MediaPipe to recognize sign language gestures and convert them into speech in real time.

Key strengths: Strong Java programming fundamentals, Object-Oriented Design, Analytical problem solving, Debugging and troubleshooting, Quick learner, Team collaboration, Good communication skills, Adaptability

Professional Certifications:

- “One week internship on Python Programming”, Organized by Top Engineers – India.
- AWS Solution Architecture Job Simulation
- Deloitte Technology and Data Analytics Job Simulation.
- Completed NPTEL Certification on Ethical Hacking and Database Management System.
- Natural Language Processing(NLP) for developers

Relevant workshop:

- Web development at IIT Madras Research Park, Chennai
- 1 – Day AI Tools Workshop awarded by be10x.

Achievements:

First prize :

- Code Wave – held at M.A.M College of Engineering and Technology

Third prize:

- AI Startup Pitch – in the topic of Cyber Security.
- Idea - To – App – in the topic of TrustNet.
- Idea Flux – in the topic of IOT Optimization.

Declaration:

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Date : 30.06.2026

Place : Trichy.

Yours Sincerely,
Ghoushenisha Begam J
